

Electric Outboard

EP-9.9

EP-9.9 ELECTRIC OUTBOARD MOTOR FEATURES:

- 7ero emissions
- Smooth running and less noise then gas powered
- Reliable and less service than gas powered
- Multiple safety precautions including; over-speed protection, overload protection, temperature protection, over-voltage and over-current protection
- Equipped with emergency stop switch
- LCD (optional) displays fault code, power consumption, rotation rate, forward or reverse, voltage, current, etc.
- Hydraulic tilt (optional)

Elco outboards may be small in size, but they are big on advanced design ideas, innovative features, and motor performance. With durability and reliability in mind, we offer a traditional proven design and leading edge technologies that make our outboards the leader in power and performance. These outboards are available in a range of horsepower and come with remote or tiller and long or short shaft to fit a variety of applications.
